

Job Description

Seasonal Farm Operations Technician

Position Summary

The Seasonal Farm Operations Technician is a seasonal part-time position that will assist in the raising of sugar beets, edible beans, hard red spring wheat, corn, and soybeans on a family-owned farm near Grand Forks, ND. This position will work the “in field” season from about late April to mid-November. The technician will be part of a team that operates various pieces of farm equipment to raise successful crops in the Red River Valley. This will include, but not limited to, operating planters, sprayers, harvesting equipment, and semi-tractors as well as using various ag related technology. Various other duties may be assigned and asked to be completed.

Duties and Responsibilities

- Ability to operate various farm equipment including tractors, planters, air seeder, sprayer, combine, sugar beet harvester, tillage, semi-tractor, and various other farm equipment
- Ability to perform maintenance on farm equipment at regular service intervals
- Ability to operate and utilize precision agriculture apps and programs
- Ability to safely and accurately handle chemicals needed for field applications
- All other duties as assigned

Requirements

- Prior experience operating farm equipment
- A willing attitude and desire to learn new skills
- Ability to troubleshoot problems and plan solutions
- Be a team player with a positive attitude and trustworthiness
- Good communicator
- Knowledge of safe workplace practices
- A valid and clear driver’s license
- Ability to obtain Private Applicator Pesticide Certificate after hiring

Benefits

- Hourly pay
- Yearly bonus
